TRIAGECERTS

Smart Phone based platform to manage Medicare CERTS digitally in post acute Skilled Nursing Facilities and to enable HIPAA compliant secure texting for communication between Nurses & Physicians, thus improving productivity, efficiency and cost savings from preventing certificate lapses.

MDS Nurse / Management

TRIAGECERTS

- Ineffective communication is the root cause for 66% of medical errors in SNFs.
- HIPAA compliant secure texting channel for communication improved access, productivity and results in better care outcomes
- Simplifies MDS Nurses task of ensuring Medicare CERT/ReCERTs are digitally approved by physicians from their mobile phones, on time, to prevent any lapses, hence loss of payments
- Trend analytics for minimizing 30 day readmissions
- All for less than \$1/bed/week - Unlimited user licenses & support
