**argusoft**  
Quality on Time

# Why we do, what we do

## the driving principles

### Philosophy

We strongly believe that technology is meant for the multi-dimensional upliftment of humanity

### Vision

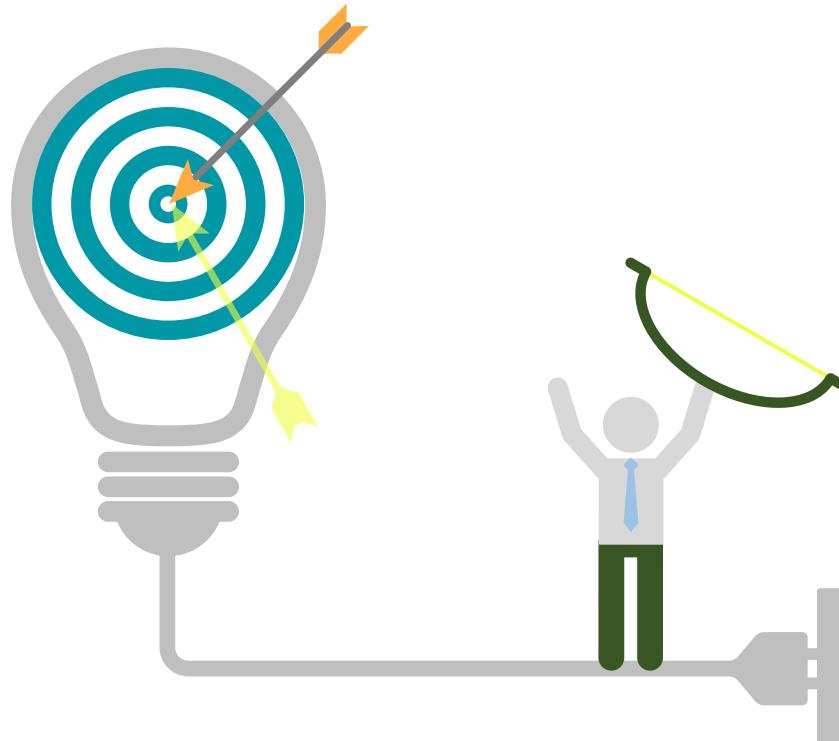

We envisage a society that is physically, intellectually, emotionally and ethically developed.

### Strategy

We have taken it upon ourselves to work towards designing software solutions that ultimately enhance the 'Quality of Life' at the community level.

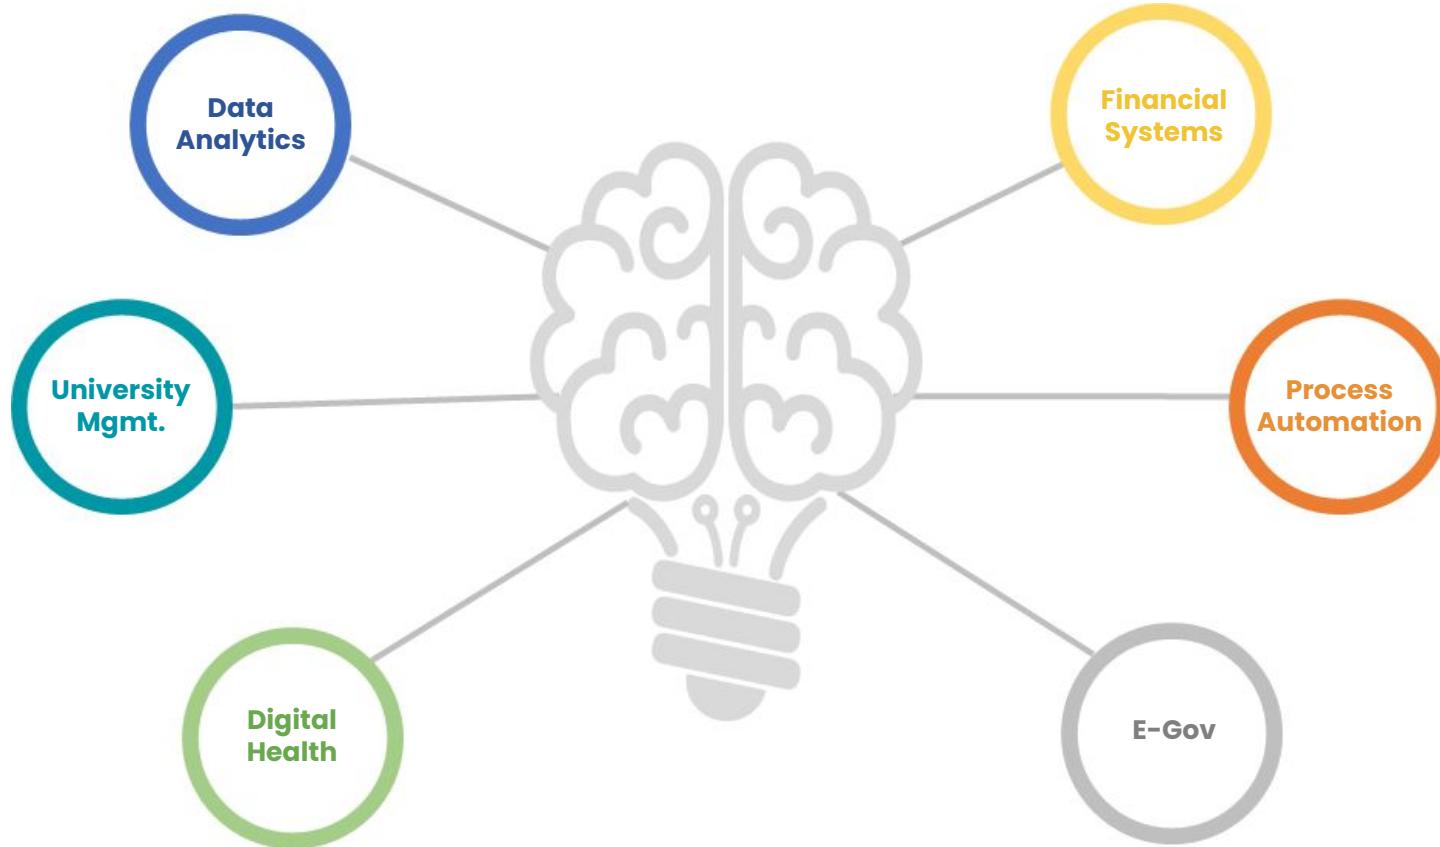

### Tactics

We have taken up direct intervention in the form of a Business Modeller Platform and a Comprehensive, Low-code, Public Health Management Platform, offered as a service.

# Domains we have applied our mind to

learning by doing

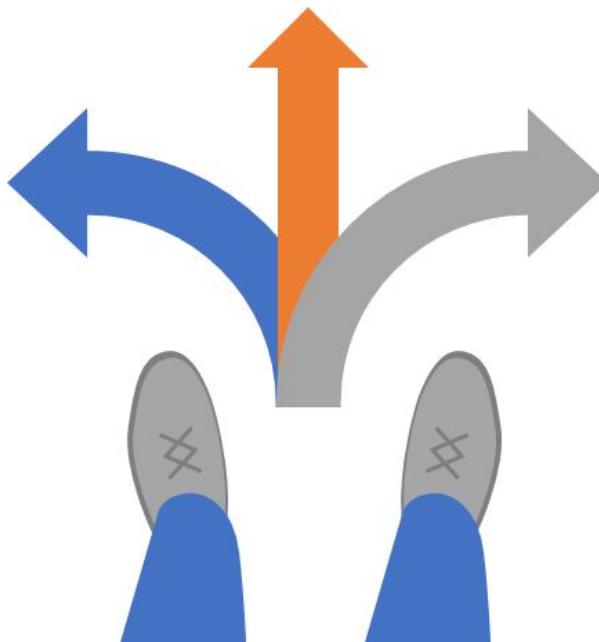

# What we bring to the table

quality on time

## Software Technology Expertise

- Dynamic systems designed to scale
- Performance, Security and Extensibility

## Human Centric Design Sense

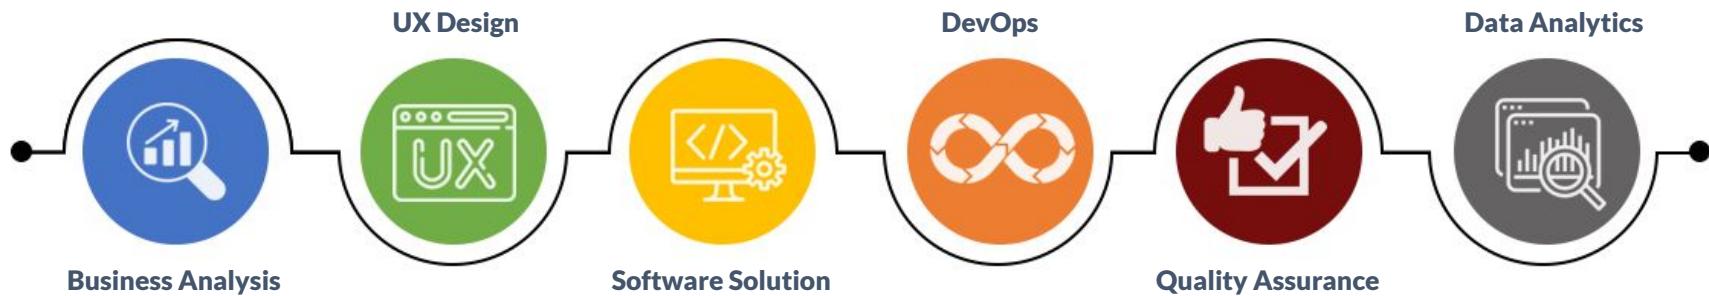

- For smoother, better adoption
- Ensures Authenticity and Accuracy.

## 'Looped' Learnings

- Wisdom of the 'feet on the ground'
- From where the 'tyre touches the road'

# What we can do for you

you choose - one, many or all

# Engagement – Model I

your end to end solution designers

**End to end execution of the solution – from requirement gathering to design, development, deployment, support & maintenance**

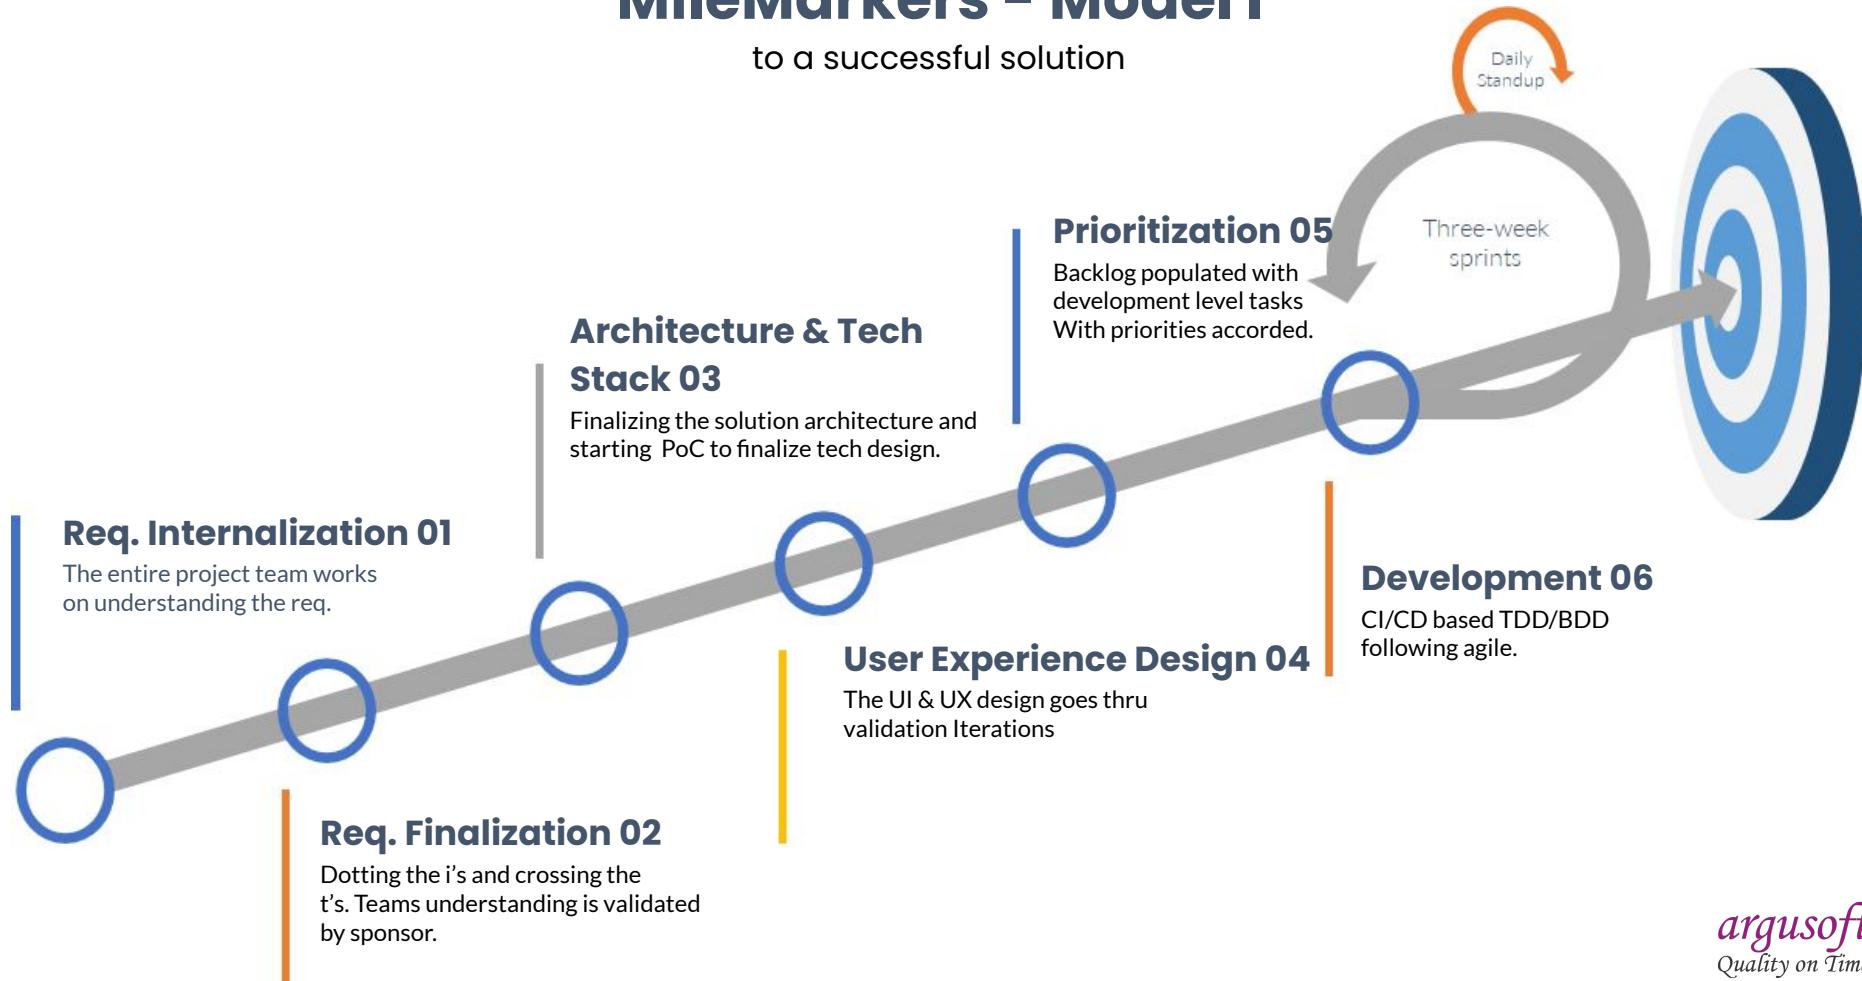

## Argusoft Advantage

- Experienced Solution Architects, Business Analysts, UI/UX Designers, Developers, QA, DevOps - all under one roof
- Experience of successfully delivering large enterprise projects
- Custom built solutions to address your unique requirements
- Prebuilt business automation tools to reduce 'Time to Market'
- Technology agnostic approach. Solution approach drives the selection of technologies.

# MileMarkers – Model I

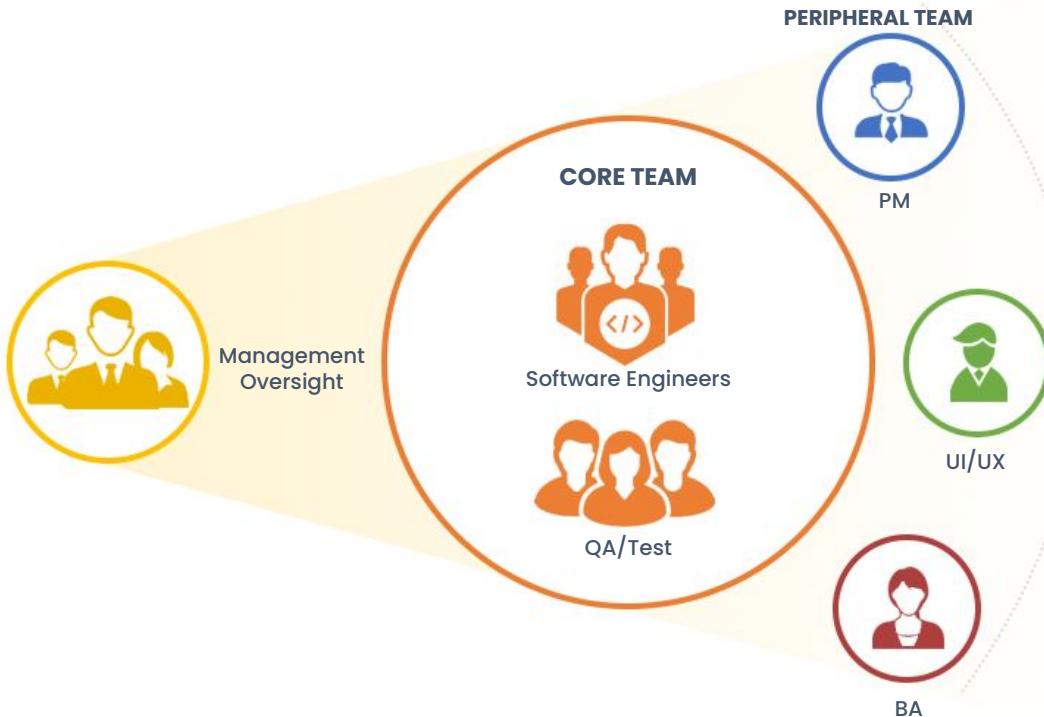

to a successful solution

# Engagement – Model II

customers extended team

**Dedicated Resource Model – we become a seamless extension of your team**

## Argusoft Advantage

- Reduce your operations cost by 65%, without compromising quality.
- Our team works with your in-house team, as its seamless extension.
- Comes with integrated project management, technical mentoring and first level QA
- Management oversight to ensure quality throughout
- Flexibility to ramp-up or ramp-down resources depending on the need
- Specialised Agile teams - easy to manage
